Summary of Contacts (chronological order)

RECAP OF PACOM CONTACT – MILITARY POPULATION ISSUES

June 2011	David contact PACOM requesting assistance with military data
6/22/11	Phone conf and followup email from David to Col. Christopher
	"Scott" Wilson, PACOM. Confirms PACOM agreement to assist,
	transmit information re data requested for 2011, data received in
	2001, additional info requested – Judge Marks memo
6/30/11	Conf call – David, Caryn, COL Wilson, LCDR Haney. PACOM able
	to assist, LCDR Haney very familiar with DMDC, confirms
	Commission wants non-resident military & non-resident dependents,
	total all military in Hawaii. LCDR Haney will be point of contact. Per
	David, will look at Judge Marks' questions, may be researched other
	agencies, reconfirm with LCDR.
7/7/11	Caryn & David review Judge M queries; check other sources; Caryn
	call LCDR Haney re note areas not reported by military re
	dependents, occupations, licensure
7/11/11	Email from LCDR Haney to David. Confirm Caryn asked for data
	already collected, not seeking new data operation.
	Reports population info:
	Active duty, assigned to Hawaii, not legal resident: 47,161
	Active duty, assigned to Hawaii, legal resident: 978
	Does not include Coast Guard
	Total: 48,139 (DMDC report as of May 2011)
	Active duty dependents in Hawaii: 65,926 as 3/31/11
7/13/11	LCDR Haney call to Caryn, review info, Caryn email confirm re need
	zip code location, both for active duty and dependents. Also request:
	Number of active duty personnel on each island
	Number of dependents on each island
	Active duty – number or % deployed at any given time
	Active duty – number or % regularly stationed and present in Hawaii
7/15/11	LCDR Haney email to Caryn, should have addl data shortly; Caryn
	email to LCDR Haney, pls check if zip codes reported with 4-digit
	extension, more precise
7/19/11	LCDR Haney email spreadsheets to Caryn/David:
	Sponsors by zip code: 48,139
	Dependents by zip code: 61,609
	Notes re those listed as unknown, they could fall into two categories.
	- Services did not provide zip code (but provide state code)
	- Or the zip and state code don't match with the state code being the
	more accurate of the two
	Numbers deployed - roughly 15% deployed at any one time from the
7107144	Active Duty assigned to Hawaii (~7,100)
7/27/11	Caryn email to LCDR, requested report dated close to April 1, 2010
	(census day). Active duty to be sorted, resident & non-resident both
T	listings by zip code, "more accurate to have zip codes of the
	residence address", also requested clarification of coast guard and

	APO/FPO addresses. Also requested zip code of dependents sorted by sponsor's status (resident/non-resident), requested assessment of how confident the reporting agencies are regarding their
	of how confident the reporting agencies are regarding their accuracy; and estimate of % of dependents who follow the sponsor to a new duty station (i.e., when sponsor is reassigned)
8/4/11	LDCR email to Caryn responds to last email. Attaching 2 xls. reporting zip codes as of 3/30/2010: duty station of active duty: 48,015
	residence of dependents: 58,949 Advises cannot sort by resident/non-resident – "DMDC not able to
	cross reference by status." Data not collected of active duty
	members residence zip code. Dependent zip codes are actual residence. Explains zip codes used & process to update. Can't "link"
	active duty and sponsor. Confirm previous info re deployed, approx. 15% or 7,100. Refers to US census explanation of how military members are counted.
8/8/11	Caryn email to LCDR, please clarify if not getting resident/non-
	resident sort for 2010. Auto-reply from LCDR – out of office TDY, contact MAJ Edwards for urgent matter.
8/9/11	Caryn email to MAJ Edwards re can he forward request for info to DMDC
8/10/11	MAJ Edwards reply to Caryn, LCDR will be in office next day and follow up
8/12/11	LCDR email to Caryn re cannot provide residence address for active duty or linkage to dependents "due to information not being collected in a way that accurately supports the requestunable to
	provide any more fidelity on numbers by zip code than this."
8/23/11	Caryn email to LCDR Haney re process questions and phone call w LCDR, reconfirmed "home of record" is how military designates resident/non-resident. Service member has duty to update when
N.	he/she changes home of record. Also it is pay info, which state for tax withholding.
	Also LCDR explained info given was not limited by privacy but rather how to give most accurate count. Said he has some info on active duty residence zip code but incomplete and doesn't account for all members. Said there is no way to determine if individuals on list of resident zip are counted in duty station.
	He said in 2001, appears reapportionment worked with each command in Hawaii to clean up reporting, but not accurate even with those efforts. Burden is on state if they are trying to go to each
	command. He explained not all commands fall under PACOM, such as Tripler (reports to a separate medical command), bases & installations (regional command). PACOM cover operational forces.
	Also said dependents reported in Hawaii are not necessarily tied to active duty stationed here.

The state of the s	
8/24/11	Caryn phone conf with LCDR Haney re dependents were reported in regular census count (at residence) so shouldn't need another count. Asked him re if he gets residence zip codes of active duty, how accurate? He states not able to tell, a number don't change address when they move residence. If they get pay & benefit at their duty location, probably why they don't bother to update record, but can't be sure. He said list is quite a bit shorter than earlier reported count, will look at why.
8/25/11	LCDR email to Caryn re has gone back to DMDC to check residence zip code. Said if there is not a more accurate way of reporting, will have to go back to SWAG (guess). Also furnished link to website with info on military legal residence. Caryn email re will wait to hear back.

Summary -Information from Military Sources

SUMMARY OF MILITARY DATA REPORTED BY LCDR MARK W. HANEY FROM PACOM & MILITARY AGENCIES

ACTIVE DUTY AS OF 3/30/2010

Active Duty assigned to Hawaii but not legal residents of Hawaii 47,082

Active Duty assigned to Hawaii who are legal residents of Hawaii 933

TOTAL ACTIVE DUTY

48,015

COMMENTS (DATES):

e = email from LCDR Haney, PACOM liaison TC = telephone conf Caryn & LCDR Haney

- 1. LCDR Haney update re has gone back to DMDC regarding residence zip code report, will see what agency reports. If not, will be a "SWAG" (guess). (e 8/25)
- 2. LCDR Haney said that the military locates active duty members by their duty assignment, not by residence. This gives the accurate number of persons. He said this (accuracy) is why DMDC reports duty station zip code. (TC 8/23)
- 3. There is no way to tell if residence zip codes are current. He said if the residence address is not updated by the individual, it will stay on the books until the person files a change. I asked if this is the case regardless of where the individual goes subsequently or how much time goes by. He said yes. (TC 8/23)
- 4. He was willing to check again regarding active duty residence zip codes, but he cautions he does not know how current the zip codes would be. He said so far he could find approx. 30,000 residence zip code of the 48,000 persons reported by duty station zip code see caveat in #3. (TC 8/23)
- 5. The military "cannot provide residential addresses for Active duty members or linkage to their dependents due to the information not being collected in a way that accurately supports the request." (e 8/12)
- 6. Per LCDR Haney, the information previously provided "is the best we can do and provides you the most accurate count of Military members and family members present in Hawaii. We will be unable to provide any more fidelity on numbers by zip code than [as furnished]." (e 8/12)
- 7. Only duty station zip codes of active duty personnel are reported, not residence. (e 7/11, 7/19, 8/4, 8/12; TC 8/15)

- 8. Coast Guard does not provide the legal residence status of members. (e 7/11, 7/19, 8/4)
- 9. Defense Manpower Data Center (DMDC) does not separate resident vs. non-resident by zip code. (e 8/4, 8/12)
- 10. Majority of the zip codes are for the individual's assigned command ("work address"), not their residence -- residence data not collected. (e 8/4, 8/12)
- 11. Some sponsor zip codes correspond to locations outside of Hawaii such as San Francisco zip codes 96601 and 96662. These are FPO AP (Fleet Post Office, Armed Forces Pacific) addresses for ships or commands based in Hawaii. (e 8/4; TC 7/21, 7/28, 8/4)
- 12. For those listed as Unknown zip code, either the services provided state code but not zip code, OR the zip and state code did not match, but state code is more accurate of the two. Person with Hawaii state code is reported. (e 8/4)
- 13. Sponsor zip codes are updated when they report to their new commands. The dependent's zip code could lag after or precede sponsor's zip code update. (e 8/4; TC 7/28, 8/23, 8/24)
- 14. Unable to "link" Sponsors with dependents (appears this was done in 2001, see Data Set dated August 9, 2001) (e 8/12, TC 8/15, 8/23)
- 15. Approx. 15% sponsors are deployed at any given time, approx. 7,100. (e 8/4)
- 16. DMDC/DEERS does not match or report using the social security number, residence address or any other identifier of a service member or dependent. Reporting of active duty members is by duty location zip code only. (e 7/11, 8/12)
- 17.3,907 active duty members reported being residents of Hawaii, but were not assigned to duty station in Hawaii and who apparently were counted elsewhere. (e 8/4-in excel spreadsheet)

DEPENDENTS AS OF 3/30/2010

Dependents – unable to separate legal residents of Hawaii from 58,949 non-residents

COMMENTS:

1. Per LCDR Haney, DMDC counted those whose sponsor is assigned to active duty in Hawaii. (e 7/11, TC 7/21)

- 2. "Dependent zip codes correspond to actual residences." (e 8/4; TC 8/23)
- 3. First dependent count (65,926 on 7/11/11 not reported by zip) was "based on the duty location of the Sponsor only. The assumption that dependents are located at these installations should not be made." (e 7/11)
- 4. Next dependent count (61,609 as of 5/31/11) reported by zip. Per LDCR Haney, they took those assigned to duty in Hawaii and counted the actual dependents of service members, this is "everyone who is actually here." He used the term "ground truth", i.e. everyone who is actually here, regardless of where their sponsor is. (e 7/19, TC 7/21)
- 5. Dependent count lower (58,949 as of <u>3/30/2010</u>), reported by zip code. This is date closest to Census Day, April 1, 2010. (e 8/4)
- 6. Military does not know or report how long after or before Sponsor's move an address is updated for dependents, as it is up to the dependent to report. (e 8/4; TC 7/28)
- 7. However, this address is "how an individual gets paid and how their family gets medical attention so the data would be extremely accurate." (e 8/4; TC 7/28, 8/24)
- 8. Cannot split by resident/non-resident (e 8/4); military considers all dependents to be private citizens so have only mailing address zip code (some out of state, PO boxes, etc.) (TC 7/7, 8/23, 8/24)
- 9. The limit of address data in #5 above was reported to the 2001 Reapportionment Commission. The Military and Dependent Data Set dated August 9, 2001 reported the same problems existed ten years earlier in the 1991 reapportionment. In 1991 and 2001, the Dependent was considered to have the same state of resident as the Sponsor. However, in 2011, Dependents cannot be "linked" or identified with their Sponsors, even aggregated by zip code. (refer to 2001 Final Report of the Reapportionment Commission)
- 10. The above number of dependents includes spouses, children, parents and former spouses who receive benefits through a sponsor who is on active duty in Hawaii. (e 8/4)

Active Duty & Dependents By Zip Codes

(March 30, 2010)

Active Duty Military in Hawaii by Duty Unit Zip

RE: PACOM J1 Data Request: Military Population for 2011 Hawaii State Reapportionment

Mrs. Moran,

This link does an excellent job explaining "legal residency" for military members: http://usmilitary.about.com/cs/militarylawl/a/homeofrecord.htm

This should answer your 1st question below.

For number 2, I want to reiterate that the military has not withheld any data from the commission due to privacy laws as the question below would lead you to believe. Also, I am working the numbers we discussed as well as went back to DMDC with a very specific request based on our discussion and reading online about the reapportionment process for Hawaii. "If" they can do the data pull then we might be closer to a solution - if not it will be back to the "SWAG" we talked about.

Mark

With Respect,

LCDR Mark Haney, USN HQ USPACOM J132 Korea and Japan AO 808-477-7400

Subject: RE: PACOM J1 Data Request: Military Population for 2011 Hawaii State Reapportionment

Good Afternoon Commander Haney,

Thank you again for your work in the last two months to assist the State of Hawaii Reapportionment Commission. Your explanations on the population spread sheets have been very helpful. As we are winding down our population research, I received two questions on the military data reporting procedures.

- 1. How were personnel were identified as "legal residents of Hawaii" as noted in your email dated 8/4/11? Does the service member declare his or her state of residency on a specific form, or does the military have a regulation that determines residency (state where taxes are withheld, etc.)?
- 2. Does the military cite a specific law or regulation in reporting only duty location zip codes, rather than residence zip codes? After the census ten years ago, PACOM was able to report the 2000 military population sorted by by duty location zip codes and residence zip codes. This year, the report contained only the duty location zip code and we were asked to see if PACOM could be more specific than "privacy laws" as a reason for eliminating residence zip codes.

We would like to respond to "process" questions as accurately as possible during the Commission's ongoing deliberations through September. Any information you can obtain would be most appreciated.

Mahalo,

Subject: RE: PACOM J1 Data Request: Military Population for 2011 Hawaii

State Reapportionment

Mrs. Moran,

I have worked with DMDC on your below request and unfortunately we cannot provide residential addresses for Active duty members or linkage to their dependents due to the information not being collected in way that accurately supports the request.

The information previously provided, Active Duty by assigned unit's zip code and dependents by residing address zip code, is the best we can do and provides you the most accurate count of Military members and family members present in Hawaii. We will be unable to provide any more fidelity on numbers by zip code than this.

Hopefully this will clear up any further questions the committee might have. With Respect,

LCDR Mark Haney, USN HQ USPACOM J132 Korea and Japan AO 808-477-7400

Subject: Fw: PACOM J1 Data Request: Military Population for 2011 Hawaii State Reapportionment

MAJ Edwards:

LCDR Haney has been PACOM's contact to the State of Hawaii's Reapportionment Project. I am forwarding my most recent correspondence seeking clarification on an earlier request for DMDC information. Are you able to request or clarify further information prior to LCRD Haney's return?

In addition to my request dated 08/08/11, can DMDC can determine the following?

1. The residence zip code of each Active Duty Member (we appreciate the earlier information of duty station zip codes) 2. The number of dependents of each Active Duty Member, and 3. A method for "linking" dependents to their Sponsor

To clarify #3, we would like to know, for example, that Sponsor A lives in zip code 96744 and has 2 dependents who also live in zip code 96744. We are not seeking names or other identifying information.

I am trying to update our reporting to our Commission next Monday, August 15, so any information received by the end of this week would be extremely helpful. If DMDC does not collect certain information requested, please advise. I can at least advise the Commission that our query cannot be answered.

Thank you for any assistance you can provide before or upon LCDR Haney's return.

Aloha,

RE: PACOM J1 Data Request: Military Population for 2011 Hawaii

State Reapportionment

Good Afternoon Commander Haney,

Thank you for your updated information last week.

1. May I ask you to recheck the first document you attached on 08/04/11. It was not what I thought it would be:

- 2. On 07/19/11, you sent me a spreadsheet listing Active Duty by Zip Code as of May 2011. This is the info I thought we would be getting, except dating back to 2010, and including resident/non-resident numbers.
- 3. Your 08/04/11 explanation noted that "DMDC is NOT able to cross reference the resident status by zip code hence no resident/non-resident delineation on the zip code sheet." Is this why the 07/19/11 report was just for Active Duty (no resident/non-resident)?
- 4. Even if there is no designation of resident/non-resident by zip code, would you please request the spreadsheet of zip codes as of March 2010.

I apologize if I have been unclear in our request for information. If you can clarify the above, I will report to our analysts and see where we need to go from here. Thank you for your patience and assistance.

Aloha,

RE: PACOM J1 Data Request: Military Population for 2011 Hawaii

State Reapportionment

Mrs. Moran,

In response to the below request, please see the attached two documents which list Military Sponsors and Dependents assigned to Hawaii by their zip code. As requested these reflect historical numbers from 30 March 2010 (closest date to 1 April 2010).

I have attempted to answer or anticipate all of your questions concerning these documents below:

- * DMDC is able to provide the number of Active Duty assigned to Hawaii who are legal residents of Hawaii (933) and the number of Active Duty assigned to Hawaii but not legal residents (47,082); exception is the Coast Guard which does not provide the legal resident status (Hence 0 for the number of legal residents under Coast Guard). DMDC is NOT able to cross reference the resident status by zip code hence no resident/non-resident delineation on the zip code sheet.
- * For the military (sponsor) spreadsheet, the majority of the zip codes provided are for the individual's assigned commands, not their actual residence (data not collected). The dependent zip codes correspond to actual residences.
- * Please note that some sponsor zip codes will correspond to locations outside of Hawaii such as 96601 and 96662 which show up as a San Francisco Zip Code. These are actually FPO AP (Fleet Post Office, Armed Forces Pacific) addresses which correspond to ships or commands stationed in Hawaii and are indeed Hawaii residents.
- * For those listed as unknown, they could fall into two categories.
- Services did not provide zip code (but provide state code)
- Or the zip and state code don't match with the state code being the more accurate of the two
- * The additional 4 digit extended zip codes are not provided by all Services for the sponsor and not at all for the dependents those that are available for sponsors are included.
- * In response to question 5 below: Sponsor zip codes are updated when they report to their new commands. The dependent's zip code is based upon them updating their move in DEERS (Defense Enrollment Eligibility Reporting System) upon arrival at the new location and could lag (or lead) the sponsor's zip code. We have no estimate available as to the average time it takes an individual family member to do this in relation to their sponsor's zip code. As to confidence of the data, it is how an individual gets paid and how their family gets medical attention so the data would be extremely accurate.
- * I do not have the data for question 6 below and I am not sure how it is relevant to determining number on island at any one time. The data provided in the spreadsheets gives you snapshot of what is a constantly moving target. If you could perhaps explain the intended purpose of this data so I could seek an appropriate answer.
- * To answer a previous question: For numbers deployed you could say roughly 15% deployed at any one time from the Active Duty assigned to Hawaii (~7,100).
- * Also asked previously is how Military Personnel were counted by the Census.

The following link from the census.gov website answers this and is in line with the information provided earlier.

http://www.census.gov/population/www/cen2010/resid_rules/resid_rules.html#TWEL VE <

http://www.census.gov/population/www/cen2010/resid_rules/resid_rules.html#TWEL VE> <

Subject: RE: PACOM J1 Data Request: Military Population for 2011 Hawaii State Reapportionment Requesting Additional Info

Good Afternoon, Commander Haney,

Thank you for your status report and for your research to date. Thank you for notifying me you are checking email while you are out of the office. If possible, would you kindly forward these requests for information to the appropriate agencies in the hope of receiving a reply when you return.

There have been premature reports in the media that the Reapportionment Commission has made a decision to count military/dependents in the population to be divided into legislative districts. However, the Commission is still working with preliminary proposals and will not make a final decision until later in the fall. We are still working on the various models for district population and now request further information.

The Commission recently retained a statistician and a demographer to further refine our computer models. The new personnel have asked my supervisor, David Rosenbrock, to forward their requests:

- 1. Reporting Date: Please ask agencies if they can report the following data collected close to the US census date of April 1, 2010. Does not need to be the exact date but the closest reporting date on file.
- 2. Sort by zip code: (you previously requested from DMDC, thank you, but now requesting data collected around April 2010)

active duty personnel-residents
active duty personnel-nonresidents

- a. For our purposes, it would be more accurate to have zip codes of the residence address.
- b. Any way to include coast guard personnel -- or a note as to why they are

not reported? (their dependents were reported) c. Do Navy APO/FPO zip codes reflect ships whose home port was Hawaii and who were in Hawaii on census day? Would the zip code for a ship from a home port outside Hawaii be reported in Hawaii if the ship were in Hawaii on census day?

- 3. Sort by zip code: (please request data collected around April 2010) dependents of active duty personnel who are residents dependents of active duty personnel who are nonresidents a. My understanding is that zip codes were reported of dependents' actual mailing addresses as of 5/31/11, not just the same zip code of the sponsor. Please reconfirm.
- 4. Please confirm with reporting agencies whether they do or do not collect and report zip codes with the 4-digit extension. When we talked briefly last week, it did not appear that the agencies were using it, but would you please confirm.
- 5. Would your reporting agencies indicate how confident they are in the accuracy of zip codes reported at any time. In previous studies, we were told that Duty zip codes were usually updated immediately on assignment, but that residence zip codes took longer, sometimes months later. This time lag was reported as approx. three months in 2001, has it changed since then?
- 6. Does DMDC or DEERS give an estimate of the percentage or number of dependents who follow the Sponsor to a new duty station? We received earlier estimates as high as 98 percent of dependents who do so. Is there a more accurate figure used by the military data agencies or is this a good working estimate?
- 7. Thank you for explaining the reports of "Unknown" and "San Francisco/out of state/APO" addresses.

I will be in touch when you return next week. Many thanks,

Caryn Moran Administrative Assistant 2011 Reapportionment Project State of Hawaii State Capitol Room 445 Tel. (808) 586-4101 Fax (808) 586-4105

Subject: Re: PACOM J1 Data Request: Military Population for 2011 Hawaii State Reapportionment

Aloha, Commander Haney,

Thank you for information furnished to date and for your kind follow-up call this morning. On behalf of the Commission and Mr. David Rosenbrock, Project Manager, we appreciate very much your assistance with military data sources.

After our phone call, below are requests for information on which we request

follow-up. The critical information we need is the location of the populations reported, sorted by zip code, for both active duty and dependents, as specifically as you are able to report.

Location of Active Duty Personnel

We originally asked for the total population and location of active duty military in Hawaii. Thank you for providing DMDC data of May, 2011 = 48,139 total assigned to Hawaii, not including 1,357 Coast Guard. You advised that their location is reported by each person's assigned command, not by residence. You also asked if we would be interested if it is broken down by number of active duty military personnel on each island.

- A. Please advise on the number of active duty personnel by zip code (total 48,139 active duty)
- B. Please advise on the number of active duty military personnel on each island (total 48,139)

Location of Dependents

We asked earlier the total population of military dependents and a breakdown by legal residence. Thank you for providing DMDC data of 31 March 2011, of 65,926 dependents assigned to Hawaii. You included the caveat that the population reported was based on the duty location the Sponsor only and that does not confirm that sponsors and dependents are co-located at the time of reporting. If possible:

- C. Please advise on the number of dependents by zip code (total 65,926)
- D. Please advise on the number of dependents by island (total 65,926)

Please advise when you obtain additional information you noted that you requested:

- E. Active Duty Percentage deployed at any given time (even a current figure is helpful)
- ${\tt F.}$ Active Duty Total number or percentage regularly stationed and present in Hawaii at any given time

I will be researching data you indicated was not collected by military sources. Thank you again for your assistance.

Subject: PACOM J1 Data Request: Military Population for 2011 Hawaii

State Reapportionment

Mr. Rosenbrock,

We are continuing to work the Military Population for 2011 Hawaii State Reapportionment request. Your primary question with respect to Active Duty military numbers has been answered and the total number of dependents on Hawaii is provided until I can get it broken down by resident or non-resident. The rest shows status by question.

I talked to Karyn Moran on Thursday and she stated the intention was not to have us solicit information from an individual data call if the information was not already collected - I have annotated data as "not collected" which falls into this category.

Please let me know if you have any additional questions - more to follow as we receive the data.

Very Respectfully,

LCDR Mark Haney, USN HQ USPACOM J132 Korea and Japan AO 808-477-7400

ACTIVE DUTY MILITARY

- 1. What is the total population of Active Duty Military in Hawaii?
- Current Active Duty Military in (assigned to) Hawaii, NOT a legal resident of Hawaii: 47,161
- Current Active Duty Military in (assigned to) Hawaii, AND a legal resident of Hawaii: 978
 - Total: 48,139
- * Data provided by Defense Manpower Data Center (DMDC) on July 7, 2011 (Data as of May, 2011)
- * Does not include Coast Guard (1,357 Coast Guard assigned to Hawaii)
- Where do they live on base / off base?
 Data has been requested from DMDC. Attached Gov of Hawaii
 Data Book on Military from 2009 gives partial answer.
- What percentage is deployed at any given time?Internal tasker will provide "currently deployed" number.
- What is the average length of deployment?
 VARIOUS
- 5. What total number or percentage are regularly stationed and present in Hawaii at any given time?

 Internal tasker will provide "current" number: Q1-Q3=
 #Currently Present
- 6. How does the Census count people in the "Armed Forces?"

(The US Census 2010 form states: "Do not count anyone living away either at college or in the Armed Forces.")

- Data has been requested from DMDC - they were in charge of military accountably for the 2010 Census. However, reading through the guidance, the armed forces accounted for personnel deployed, on ships and living on base (Government Quarters) through organized census form distribution as well as expected those living off base to complete the standard form. If a person received duplicate census forms (assigned to a ship but also living off base) they were to fill out both. Overseas assigned personnel were counted by DMDC.

MILITARY DEPENDENTS

- 1. What is the total population of Military Dependents in Hawaii?
 - Total number of Active Duty Dependents in Hawaii: 65,926

- Break down by legal residence requested from DMDC.

* Data provided by Defense Manpower Data Center (DMDC) on 1 May, 2011 (Data as of 31 March, 2011)

* Includes Coast Guard.

- * The data in this report is based on the "duty location" of the Sponsor only. The assumption that dependents are also located at these installations should not be made. There are instances where sponsors and dependents are colocated, but this report does not confirm that.
- Where do they live on base / off base?
 Data has been requested from DMDC. Attached Gov of Hawaii
 Data Book on Military from 2009 gives partial answer.
- How many (number or percentage) own homes in Hawaii?
 DATA NOT COLLECTED
- 4. Where are those residents located? (At least by zip code).

 Data requested from DMDC but dependent data is likely tied to sponsor's base zip code.
- 5. How many military dependents are enrolled in State of Hawaii DOE schools?
- Request rescinded by Karyn Moran. FYI: Data is provided annually to State of Hawaii by PACOM J10ED
- 6. How many military dependents are employed in the State of Hawaii? Do we know where they are employed? (on base / off base?) Do we know how many military dependents pay Hawaii income taxes?

 -DATA NOT COLLECTED
- 7. How many military dependents have some type of State of Hawaii license (i.e. DOE teacher; nurse, etc.)
 -DATA NOT COLLECTED

Subject: Military Population for 2011 Hawaii State Reapportionment

Aloha Colonel Wilson,

Thank you for your call this morning. I look forward to working with you to successfully answer the reapportionment commission charge to use the "permanent resident" population base in their 2011 reappointment/redistricting process.

I have attached a document which explains in general what information was asked for by the commission in 2001 and what was provided by the military. I have also attached a set of questions posed by the Reapportionment Commission Chairperson Victoria Marks.

I understand you need a couple of weeks to get up-to-speed on this matter.

Please feel free to ask me any questions about the project. I was also the project manager for the 2001 reapportionment project.
